

RESURRECTION RESURRECTION

Title: 'RESURRECTION'

Author: Murrell, Janice

Description: With this book, I invite you to step back to a time of considerable controversy in Egyptian society, specifically in Alexandria, Egypt during the late 300's-415 A.D. How the people dwelt with the inception of the "church beliefs" that were being forced upon them, which have had far-reaching mental and spiritual effects on the whole of society throughout history. This is an example of how we cannot know what is good for another person, city, town, or country. We have not walked their streets enough, lived their culture.

The ancient Egyptian myths enamor me, as does their use of symbolism in explaining life, their spiritual and societal beliefs, and the importance of Numerology in life. My purpose is to share my Truth with you in bringing back their perception of Oneness with all, thereby to be able to see just how powerful you individually are and have always been..
